

"Are you too busy...?"

A Free Lunchtime talk from Teacup

Monday 30th November, 12:30pm
The Euston Office | teacup-ltd.com

...an important question if you're running a business like Duda, the Founder of Teacup Ltd.

And if you're busy - better put - **too** busy, then attending this FREE lunchtime Workshop with Duda is going to change the busy into productive.

Duda and her small company Teacup works with Business Owners and Start Ups on their never-ending to-do lists to help them grow their businesses, letting you focus on your job as the business owner while they take care of the distracting admin work.

Duda is also a global Productivity Coach for Entrepreneurs where she teaches you simple tricks on:

- How to find clarity on what you are doing & what needs to be done.
- How to find time in the day when you think there is none.
- How to set your priorities so that your goals are achieved.
- Creates an action plan that is super-practical and provides immediate visible results.

Duda is offering a free workshop for those of you who are:

- Smart & modern.
- A forward thinking achiever wanting to get things done.
- Seeking reliability & results.
- Want to do your job & enjoy your business watching it grow.

Duda started her first business in 2009 with no funds or resources. Having worked up to 21 hrs a day to set up her business and become profitable, she learnt productivity the hard (but the best) way. Today Duda is expanding globally, working with clients in the UK, US, Japan, Paris, Spain, Germany, and Canada. She employed 3 assistants and the team runs like clockwork. Despite working with high-profile clients including Apple Duda's biggest passion remains helping small business owners overcome the challenges she faced herself when starting up.

Duda wants to share her knowledge about running a business productively and as stress free as possible with her fellow entrepreneurs in the TOG community. She is famously straight-talking, so don't miss out!

The Workshop will be led by Duda offering a practical guide to productivity in the first 30 minutes, followed by an interactive agenda with a Q&A where attendees can share their own experiences.
